Dear Heather Schoeppach

I wanted to thank you for allowing me to be at your facility. I enjoyed visiting with the animals and helping around the work area. Your facility is such an amazing place, because of how you help all these animals and take them in and make sure they have food in their belly and a roof over their head. It's amazing to know that there are still people and facilities in the world that are here to help these animals, and not all of them are left on the street, I mean there are always going to be some animals but at least not all of them will be on the street because you are here for them. If you ever need my help or want me to work there, I am more than willing to help again. Thank you Humane Society for allowing me to work with you. I enjoyed volunteering at the Butte Humane Society and appreciate the opportunity to be able to help around the office. The Butte Humane Society does so much for the animals and I felt like I was doing a big part by helping out. Keep up the good work!

Sincerely

**Cynthia Riggs
